

Title Fresh produce imports: a quarantine perspective
Author Brake, V., Crowe, B. and Russell, S.
Citation Australian postharvest horticulture conference, Brisbane, Australia, 1-3 October, 2003; 100-101

Abstract

This paper provides an overview of the import risk analyses, importation procedures, intercepted pests and diseases (including bean thrips (*Caliothrips fasciatus*), New Zealand flower thrips (*Thrips obscuratus*), Western flower thrips (*Frankliniella occidentalis*), *Brevipalpus lewisi*, *B. californicus* and plum pox virus) in products imported by Australia from different sources.
